The Science Fiction Book Club.
The Mystery Guild
Customer Service Center
Garden City, NY 11535

The Detective Book Club
Roslyn, NY 11576

Science Fiction Research Association

The SFRA seeks to serve as a gathering point and clearing house for all those concerned with some phase of the study of SF and modern fantasy, as well as to promote it. Its international membership has access to a wide variety of materials. For more information write: Science Fiction Research Association, Thomas D. Clareson, Box 3186, College of Wooster, Wooster, Ohio 44691.

Dealers

Many specialty dealers exist. Most publish catalogs and/or will do an exclusive search for hard to get or O.P. titles. Don't send them a carbon or photocopied list as they usually give priority to original copies of lists. The Encyclopedia of Mystery and Detection, p. 96, has a list of dealers. They missed: Murder, Inc., 271 West 87th, New York, NY 10028. Publishers Weekly, June 14, 1976, p. 55 has a list of SF dealers in what was their SF issue. Hobbit House is now out of business.

Collections

Several major collections exist that can be tried for interlibrary loans. The major mystery ones are listed on pp. 95-96 of the Steinbrunner book. One of the largest university collections of SF & F periodicals is located at Texas A & M. This collection has copies of all the English and American SF & F periodicals ever in existence.

Collections, cont'd.

The Greenwood Press has many periodicals available on microfiche. The Spaced-Out Library, Toronto Public Libraries, 566 Palmerston Avenue, Toronto, Canada has over 12,000 SF & F items in a special reference collection. It has the largest collection of fanzines available.

Media

A film series dealing with SF has been produced at the University of Kansas in cooperation with the Science Fiction Writers of America. These films are available for rent or for purchase. Most of them consist of interviews with, and lectures by SF writers. For more information write: The Literature of Science Fiction, The University of Kansas, Division of Continuing Education, Film Services, 746 Massachusetts Street, Lawrence, Kansas 66044.

In the back of most SF and mystery magazines are advertisements that include ads for copies of old time radio programs. It is unknown if they possess copyright, or if they are pirated. Perhaps a more legitimate source for tapes is: Old Time Radio, Box 8238, Spokane, WA 99203.

Several different companies have records of SF & F stories, many read by the authors. For more information write:

DIRECTIONS FOR USING THE READABILITY GRAPH

1. Select three one-hundred-word passages from near the beginning, middle, and end of the book. Skip all proper nouns.

2. Count the total number of sentences in each hundred-word passage(estimating to nearest tenth of a sentence). Average these numbers.

3. Count the total number of syllables in each hundred-word sample. There is a syllable for each vowel sound; for example cat (1), blackbird (2), continental (4). Don't be fooled by word size; for example: polio (3), through (1). Endings such a -y, -ed, -el, or -le usually make a syllable, for example: ready (2), bottle (2). Average the total number of syllables for the three samples.

4. Plot on the graph the average number of sentences per hundred words and the average number of syllables per hundred words. Most plot points fall near the heavy curved line. Perpendicular lines mark off approximate grade levels.
